HOW THE WHOLE PROJECT WORKS

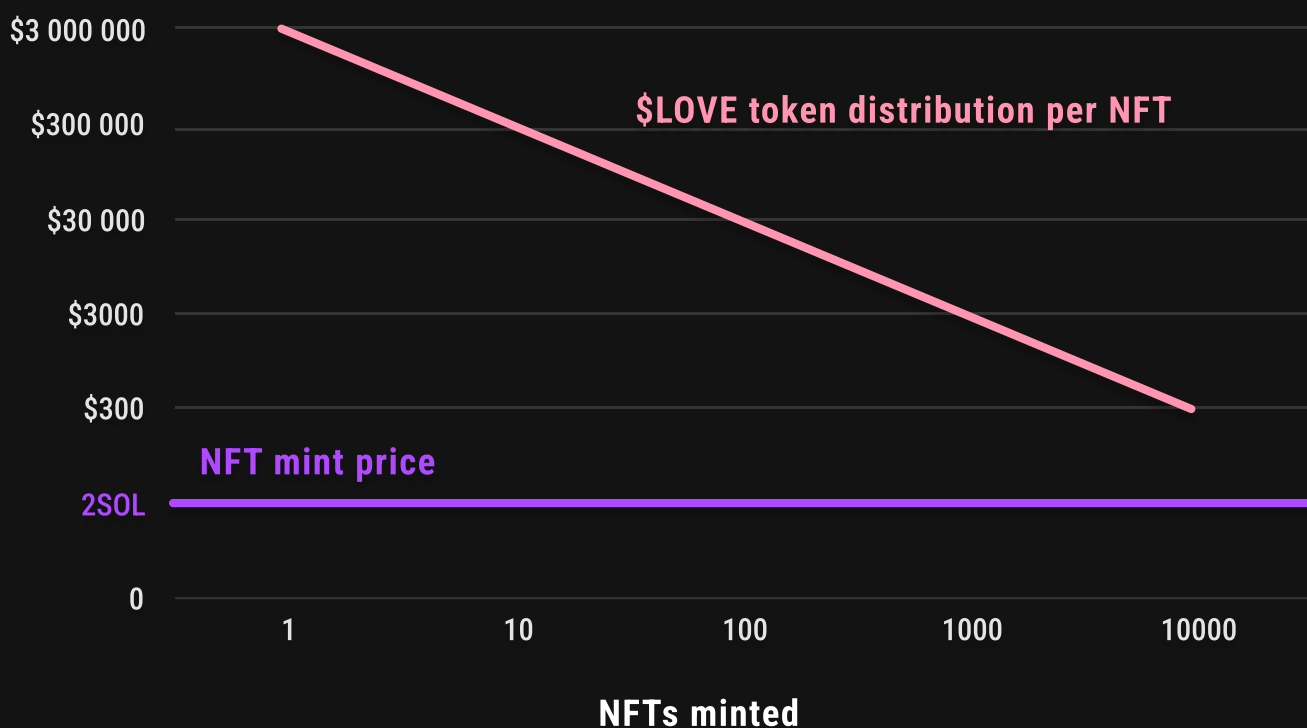

The \$LOVE token is poised to lead the meme project space on the Solana blockchain, supported by a skilled and well-connected team. Details about the token's purpose are on our website.

Central to our project is the innovative NFT to Earn concept. The Lovers NFT collection aims to be a top PFP collection on Twitter. We strive for exclusivity, potentially supporting the floor price through team bids.

The collection, beyond serving as an attractive Twitter PFP, will integrate additional utilities in the \$LOVE ecosystem, starting with the NFT to Earn model.

NFT holders get 30% of the total \$LOVE token supply. With an initial FDV of \$10M, that's \$3M in \$LOVE tokens. We expect the liquidity and value to rise before launch. The NFT sale is set for February 5th on Ovals launchpad, for a limited period.

Token distribution to NFT holders is proportional. If 1 NFT is minted, its owner gets the entire 30%. If more are minted, the distribution adjusts: 10 NFTs mean 3% per NFT, 100 NFTs mean 0.3% per NFT, and so on. Even at 10,000 NFTs, with a \$10M FDV, each NFT represents \$300 in \$LOVE tokens, exceeding the minting price. This mechanism is detailed in the subsequent graph.

FUTURE OF THE PROJECT

The project's primary goal is enduring success. Following the NFT presale, we'll promptly begin staking and roll out additional utilities. Our focus is on nurturing communities, forging partnerships, bolstering our marketing efforts, and replicating the strategies of successful meme tokens. While we're keeping some plans under wraps to enhance the impact of future reveals, anticipate exciting developments ahead.

PROJECT LAUNCH TIMELINE

♥ Feb 2

Fair launch of the \$LOVE token, creation of a liquidity pool on the Raydium protocol, with initial liquidity of ~ \$500k and a starting FDV of \$10M.

♥ Feb 5

NFT presale, minting of PFP (profile picture) collection LOVE: The Lovers NFT. During this presale, 30% of the total \$LOVE token supply will be distributed to NFT holders.

♥ Feb 5-10

Gradual listing on various centralized exchanges.

♥ End of Feb

Gradual distribution of airdrops, start of the vesting period.

♥ Throughout this period

Plans include adding more utilities, such as a Casino, LOVEX (DEX), and establishing further partnerships and marketing integrations.
